“ENGINEERS IN ACTION II”

For second consecutive year the salaried training program of ALUMINIUM OF GREECE

ALUMINIUM OF GREECE of MYTILINEOS Group is successfully implementing the program "ENGINEERS IN ACTION" for a second consecutive year. Young engineers up to 28 years old will have the opportunity to participate in a **12 months salaried practical training internship in one of the top alumina and aluminum production industries worldwide.**

This initiative builds upon the first program of the period 2015-2016, which, fulfilling its main goal, led 90% of its graduates to the labor market, in less than three months.

The program "ENGINEERS IN ACTION II" includes training, job rotation, coaching and evaluation. Its main objective is to offer young engineers valuable experience, unique expertise and development of their personal skills in a modern industrial "school".

Participants will **receive the necessary skills** for their future professional employment and will also be able to pursue a position in the organizational structure of ALUMINIUM OF GREECE, according to the company's organic needs.

This **social initiative of ALUMINIUM OF GREECE** is based on the philosophy of the MYTILINEOS Group to support young people, by systematically investing in the improvement of their skills as well as in their acquisition of experience and expertise, substantially contributing to the **fight against unemployment and at the same time boosting economic and social development.**

Ideal candidates should be up to 28 years with the following qualifications:

- A BSc in Engineering (Mechanical, Electrical, Chemical, Civil, Mining, IT) and be a member of the Technical Chamber of Greece (TEE)
- A postgraduate Degree
- Fluency in Greek and English
- Excellent knowledge of MS Office
- Fulfilled military obligations (for male candidates)
- Working experience of less than two years

For **more information about the program and the CV submission procedure**, candidates can visit **the section dedicated to the programme**, at the website of **ALUMINIUM OF GREECE**: www.alhellas.com
